SUMMARY

Software Development Engineer in Test (SDET) with 5 years of experience in automation testing, test framework development, and CI/CD integration. Proficient in Java, Selenium, Playwright, API automation with Carina Framework, TestNG, JUnit, REST Assured, and API Testing, CODY, TestRail, Playwright MCP. Skilled in designing robust automation frameworks for web, mobile, and API testing to ensure high-quality software delivery.

SKILLS

- **Programming Languages:** Java, JavaScript
- **Test Automation:** Selenium WebDriver, Playwright
- **API Testing:** Postman, REST Assured
- **Test Frameworks:** JUnit, TestNG, Carina
- **CI/CD Tools:** Jenkins, GitHub Actions, GitLab CI/CD
- **Version Control:** Git, GitHub, Bitbucket, Gitlab
- **Build Tools:** Maven, Gradle
- **Database:** MySQL, PostgreSQL, MongoDB
- **Cloud & DevOps:** AWS, Docker, Kubernetes
- **Test Case Management Tool:** TestRail, Jira Zephyr
- **Performance Testing and Security Testing:** JMeter

CERTIFICATIONS

- Playwright with Java by Rahul Shetty
- ISTQB Foundation Level Certification

PROFESSIONAL EXPERIENCE

CornerStone Ondemand, Hyderabad

June 2024– Present

SDET

- Led a team of 5 peers on verification activities on every phase of SDLC and STLC for 4 International software components; increased productivity by 45%.
- Performing API testing utilizing the **POSTMAN** tool
- Experienced in using the **Test Rigor** tool
- Conducting UI automation with **Playwright** and Java
- Independently handled **API** automation using the **Carina** Framework, achieving automation of nearly 100% of test cases and performing in-sprint automation as well.
- Developed and maintained robust automation frameworks for web, and API testing using **Playwright**, and REST Assured.
- Executed and monitored automated test suites during release cycles to ensure reliable and efficient delivery

Rugged Monitoring, Hyderabad

Apr 2023 –Jun 2024

QA Engineer Client : Reliance Industries

- Created various project specific valuable assets such as knowledge transfer documents, test plan, defect summary reports and lessons learnt documents, successfully delivering 7 releases involving UAT and regression testing.
- Performing Testing Using **Modbus** (TCP/IP) Protocol
- Maintaining code on **Bit Bucket** and integrating on **Jenkins**
- Handling Team of 6 members also Collaborate with cross functional teams to analyze the requirement and mentor Junior members
- Conducted **API testing** using **Postman**, validating response codes, headers, and payloads.

- Created weekly and monthly project status reports for various stakeholders, highlighting key constraints, if any, and ensuring timeliness of project deliverable, resulting in over 95% customer satisfaction rate.
- Performing functional and Regression, Smoke, Sanity testing of UI using **Selenium**

StepStrong Software, Pune

Dec 2020 –Apr 2023

QA Engineer

- Understand the business requirement thoroughly and identify scenarios, prepare test cases
- End to end feature testing using automation testing.
- Preparing sprint wise Test Execution Report, Sprint Report
- Sustained 95% on-time completion rate for software tests by effective team management and work balance.
- Analyzing the production Issues and finding the Root Cause
- Created weekly and monthly project status reports for various stakeholders, highlighting key constraints, if any, and ensuring timeliness of project deliverable, resulting in over 95% customer satisfaction rate.

EDUCATION

SRTM University, Nanded

Mar 2016-Mar 2019

Bachelor of Science — Computer Science
