SUMMARY

Software Test Engineer with approximately 4 years of experience specializing in automation and manual testing within the BFSI domain. Skilled in designing and maintaining Hybrid automation frameworks using Selenium WebDriver (Java), Cucumber BDD, TestNG, and Maven. Hands-on experience in API testing using Postman and REST Assured, along with strong proficiency in SQL for backend data validation. Experienced in executing and monitoring automation suites through Jenkins CI/CD pipelines and collaborating within Agile teams to deliver high-quality, secure, and scalable banking applications.

PROFESSIONAL EXPERIENCE

Wipro Ltd – Project Engineer (QA)

Mar 2022 - Present

Location: Pune, Maharashtra

Client: Citi Bank, Global Markets (BFSI), (EMEA, NAM, APAC, LATAM)

Project Names: EUC Remediation, ITeSS Migration

Project Overview: Automated, workflow-driven reporting platform for banking clients, supporting input ingestion, data validation, data transformation, workflow orchestration, and standardized financial report generation with strong governance and access controls.

ROLES AND RESPONSIBILITIES

- Collaborated closely with Product Managers, BAs and Developers to clarify requirements, review scenarios, ensuring **100%** coverage of business needs. (Agile, Requirement Analysis)
- Analyze Functional Requirement Documents (FRDs), user stories to estimate efforts, prepared **50+** test plans, scenarios and cases per sprint. (Manual Testing, Test Planning)
- Executed **200+** test cases per release cycle across Smoke, Regression, Sanity, Cross-Browser, Database, and E2E testing, performing end to end functional, workflow, and validation testing across SIT and UAT phases. (Functional & Regression Testing)
- Designed and implemented automation for **100+** regression scenarios using Selenium WebDriver (Java), Cucumber BDD, TestNG, and Maven in a hybrid framework, improving regression efficiency and ensuring maintainable UI automation through POM-based reusable components. (Automation Testing, Hybrid Framework)
- Conducted API testing for **30+** endpoints using Postman and REST Assured, validating request/response payloads, status codes, and backend data consistency. (API Testing, Backend Validation)
- Executed complex SQL queries for **10+** critical modules, ensuring data accuracy. (Oracle SQL, Database Testing)
- Validated financial reports by reconciling system-generated outputs against SME-provided expected results, ensuring data accuracy, calculation correctness, and compliance with business rules. (Data Accuracy, Business Rule Validation)
- Logged, tracked, and verified defects using Jira, ensuring effective defect lifecycle management and timely closure through collaboration with development teams. (Defect Management)
- Executed automation suites via Jenkins CI/CD pipelines, ensuring build stability across environments. (CI/CD)
- Collaborated daily with global stakeholders through A-UAT and A-PROD calls, supporting requirement

clarifications, and issue resolution across multiple releases, contributing to on-time delivery and smoother testing cycles. (Stakeholder Management, Client Communication)

- Actively participated in defect triage and RCA calls, providing functional and technical analysis to support timely resolution and improve overall test quality. (Quality Improvement)
- Ensured timely completion of BAU activities to support seamless EUC go-live readiness. (BAU Support, Release Readiness)
- Provided QA sign-off for **40+** production deployments, enabling on-time releases with zero post-production critical defects. (Release Management, Quality Assurance)
- Led and mentored a team of 2–3 QA engineers and provided KT to new joiners on application workflows, testing processes, and automation framework, ensuring high-quality and timely test execution. (Leadership, Mentorship, Ownership)

SKILLS

- **Testing Skills:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, System Integration Testing (SIT), UAT, Cross-Browser Testing, Database Validation.
- **Automation Testing:** Selenium WebDriver (Java), Cucumber BDD, TestNG, JUnit, Hybrid & Data-Driven Frameworks, Page Object Model (POM).
- **API & Integration Testing:** REST API testing using Rest Assured and Postman, API contract validation using Swagger.
- **Programming & Tools:** Java, IntelliJ IDEA, GitHub, Jenkins, Bitbucket, CI/CD, Jira, Confluence, MS Excel, MS Word.
- **Development Models:** Agile (Scrum), Waterfall, SDLC.
- **Databases:** Oracle SQL.
- **Customer Engagement:** AUAT/APROD calls, requirement walkthroughs, clarification sessions, and issue resolution with global stakeholders (EMEA, NAM, APAC, LATAM).

EDUCATION

- | | |
|---|------------|
| • Master of Technology (MTECH) , Deogiri Institute of Engineering and Management Studies | 2025 |
| • Bachelor of Engineering (BE) , MGM's Jawaharlal Nehru Engineering College | 2016 -2020 |
| • Higher Secondary Certificate (HSC) , Maharashtra State Board | 2014 -2016 |
| • Secondary School Certificate (SSC) , Maharashtra State Board | 2014 |

CERTIFICATIONS

- Appian Associate Certified Developer
- Microsoft Azure Fundamentals (AZ-900)
- Microsoft Azure Data Fundamentals (DP-900)

AWARDS

- Inspiring Performance Award | Always Communicating Award | Building Trust Award
