PROFESSIONAL EXPERIENCE

Wipro Ltd – Project Engineer (QA)

Mar 2022 - Present

Location: Pune, Maharashtra

Project 1: CITI BANK – EUC Remediation Program

- Tested **Appian**-based banking applications across **SIT**, **Regression** and **UAT** phases.
- Conduct **E2E testing** to ensure system stability and alignment with business processes.
- Designed **BDD**-aligned test cases using **Cucumber**, based on Functional Requirement Documents (**FRDs**).
- Ensured document **sensitivity** levels were correctly applied in alignment with Functional Requirement Document (FRD) specifications.
- Prepared test plans, test strategies, and executed data-driven scenarios aligned with business rules.
- Performed database testing using **SQL** to verify table structures, column types, and data accuracy.
- Logged and tracked defects using **Jira**, ensuring traceability and timely resolution.
- Participated in **AUAT** and **APROD** calls to assist customers with application flow understanding, issue handling and requirement updates.
- Explained production/UAT issues in **RCA** calls to support team learning and improve **test coverage**.
- Completed **automation** tasks within defined timelines to support seamless delivery cycles.
- Ensured mandatory **execution** of test cases to prevent delays in production deployment.
- Implemented test automation scripts using the **Octa** tool to support regression and integration testing.
- Effectively utilized **Swagger UI** to compare system-generated files with SME-provided templates.
- Validated **XLSX, CSV, and TXT files** to ensure formatting accuracy, content correctness, and compliance with expected standards.
- Performed **negative validations** and conducted **performance testing** by increasing input data size to evaluate transformation time and output generation efficiency.
- Ensured timely completion of **BAU activities** to support seamless **EUC go-live readiness**.
- Delivered 50+ EUCs with a **90%+ issue-free rate**, ensuring stable deployments through thorough testing and defect prevention.
- Delivered compliant and stable releases under tight timelines in a **regulated banking environment**.

Project 2: CITI BANK – ITess Migration Project

- Worked under tight deadlines to validate critical ITess modules impacted by **KNIME** to **Aspose** migration, ensuring high-quality delivery without compromising test coverage.
- Developed and executed test cases for updated document-generation workflows.
- Participated in **Agile** ceremonies including **sprint planning**, **stand-ups** and retrospectives.

- Scheduled **AUAT/APROD** calls, followed up with customers on UAT/Production testing ETAs, and clarified flow issues when needed.
- Coordinated closely with developers and business analysts to validate functionality against requirements.
- Delivered **20+ use cases** in the ITess Migration Project with zero post-deployment issues, ensuring high-quality releases under tight deadlines.

SKILLS

- **Testing Skills:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, UAT, System Integration Testing, Database Testing (Oracle SQL), API Testing using Postman.
- **Automation Testing:** BDD using Cucumber, basic understanding of Selenium and JUnit.
- **Programming & Tools:** Unix Scripting, Jira, Swagger.
- **Development Models:** Waterfall, Agile.
- **Databases:** Oracle SQL.
- **Customer Engagement:** AUAT/APROD calls for walkthroughs, requirement clarification, and issue resolution.

EDUCATION

- | | |
|---|------------|
| • Bachelor of Engineering (BE), MGM's Jawaharlal Nehru Engineering College | 2016 -2020 |
| • Higher Secondary Certificate (HSC), Maharashtra State Board | 2014 -2016 |
| • Secondary School Certificate (SSC), Maharashtra State Board | 2014 |

AWARDS AND RECOGNITION

- **Inspiring Performance Award** – For successfully delivering the first use case in the ITess project.
- **Always Communicating Award** – For maintaining clear, timely communication throughout testing and support phases.
- **Building Trust Award** – Earned in the early EUC project phase for consistent, quality-focused execution.
